

**ONE WITH NATURE**  
World of Hunting and Nature Exhibition  
HUNGARY 2021

## DEAR REPRESENTATIVE,

It is a source of great pleasure and pride for Hungary to be staging the “One with Nature” - World of Hunting and Nature Exhibition from 25 September to 14 October 2021. We are firmly committed to realizing an event that will provide you with an unforgettable experience. Therefore we would like to avoid any further uncertainties regarding the COVID-19 travel regulations related to entering Hungary. In Hungary the pandemic’s third wave is at an end, with an accelerating rate of decline in new infections and a very low level of positive tests. Meanwhile it is in second place in Europe when it comes to the number of first doses administered, and in first place in terms of the rate of fully vaccinated citizens.

### COVID-19 PROTOCOL:

- From 1 July 2021 all travel into Hungary from other EU countries is permitted with a valid **EU Digital COVID Certificate** or a negative COVID-19 test result obtained no more than 72 hours before entry.
- Hungary has **bilateral agreements** with several countries on accepting each other’s vaccination certificates that allow travel. The list of these [countries](#) is constantly expanding. Hungary also unilaterally accepts the vaccination certificates of those entering from Romania.
- For approved participants of the European Taxidermy Championships (ETC), personalized invitations will be issued that make the visit **an official business trip**. This will allow entry without restrictions.
- Participants will also be able to enter with a negative COVID-19 PCR test result obtained no more than 72 hours before entry. The test has to be repeated every three days.
- For more information: [abouthungary.hu](http://abouthungary.hu)

### VISAS:

- From the EU, you can travel to Hungary without a visa.
- For those travelling to the Exhibition from outside of the EU (North or South America, Africa, Asia etc.), with the agreement of Hungary’s Ministry of Foreign Affairs and Trade, **we will issue visas for the sole purpose of entering Hungary (but no other EU countries) in a simplified and accelerated process**. For this, please contact the Hungarian Consulate in your country as soon as possible.

### VACCINATION:

- We are also open to finding solutions providing the safest possible travel and participation conditions for those coming from countries where vaccination programmes are at a less advanced stage. We will consider these cases on an individual basis.

**We assure you that if you decide to come and participate at the Exhibition, we will find a solution enabling you to enter the country!**

**WE LOOK FORWARD TO SEEING YOU ALL IN BUDAPEST!**
